The
Mole Hole

Range Cooker Towel

HAND MADE
IN ENGLAND

A 100% woven cotton hand towel which fixes with snap-fastener tape to give a continuous roller towel over the front rail of your cooker.

Handmade in England, our kitchen towels are attractive, hard wearing and being 100% pure cotton are very absorbent and completely colourfast.

Choose from a variety of patterns that have been achieved using a unique multi-coloured weaving process. Vibrant coloured threads are woven (no printing or transfers are used) to give these clearly defined designs.

Towels are approx 110cm (43") open full length x 34cm (13.5") wide - this gives approx a 52cm (20") drop from the rail.

As The Mole Hole name suggests, we specialise in traditional moleskin garments, for the full range of Mole Hole branded products please contact us below.
